

Poster (Board) Numbers & Presenter List

Poster No.	Title	Presenter Name
PP-01	Randomized phase 2 trial of neoadjuvant gemcitabine-cisplatin (GemCis) with or without durvalumab (D) for localized biliary tract cancers (BTC): Final clinical and biomarker analysis of the DEBATE study	Hyunseok Yoon
PP-02	Real-World Outcomes of Pembrolizumab-Based Chemo-Immunotherapy in Metastatic NSCLC in Vietnam: A Retrospective Analysis Across Squamous and Non-Squamous Histology	Thai Le Hong
PP-03	A Retrospective Analysis Across Squamous and Non-Squamous Histology	Kelvin Yan
PP-04	Optimal delivery of piggyBac transposase for engineering chimeric antigen receptor T cells via in vitro transcribed mRNA	Thanyavi Chinsuwan
PP-05	Prediction of anti-PD1 Immunotherapy Efficacy in Head-Neck Squamous Cell Carcinoma Through Digital Pathology Artificial Intelligence	Tien Hua Chen
PP-06	H&E 3.0: An AI-Driven, Chemical-Free Virtual Histology Solution Enabling Worldwide Multiomics Profiling	Ruisi Li
PP-07	A Mutant KRAS-Specific GM-CSF-Armed Oncolytic Adenovirus Exerts Tumoricidal Effects on Pancreatic Adenocarcinoma via a Favorable Antitumor Microenvironment	Po-Shen Ko
PP-08	Live FluoroSpot: Real-Time Visualization of CTL-Mediated Cytotoxicity at Single-Cell Resolution	Zhuohao Yang
PP-09	Immunotherapy in ERBB2-Mutant NSCLC: Efficacy and PD-L1 Association in a Real-World Cohort from Hong Kong	Qijun Du

Poster No.	Title	Presenter Name
PP-10	The immune modulation effects of ovarian function suppression in premenopausal patients with hormone receptor-positive breast cancer	Zola Chia-Chen Li
PP-11	Novel Humanized Anti-CD20 CAR-T Cells with Improved Metabolic Fitness Show Superior In Vivo Efficacy in B-Cell Lymphoma: A Promising Candidate for CD19/CD20 Dual CAR-T Strategies	Ambalika Chowdhury
PP-12	Enhancing immune surveillance in head and neck cancer with DNA vaccine	Chai Phei Gan
PP-13	Engineering Human iPSC-Derived NK Cells with CAR19 and IL-18 for Targeted Immunotherapy of ALL	Son Vu
PP-14	Generation of dual Bispecific Protein Engagers targeting Mesothelin and NECTIN2 for activation of cytotoxic T-lymphocytes against colorectal cancer cells	Suyanee Thongchot
PP-15	Some Tumours Are 'Born Bad': Baseline TME Predicts Relapse in EGFR-Mutant Never-Smoker NSCLC	Komal Gupta
PP-16	Spatial Multiomics Identifies EGFR Mutation-Associated Vasculogenic Mimicry Signatures and Distinct Immune Spatial Architectures in Lung Adenocarcinoma	Chun-Hui Lee
PP-17	Spatial Transcriptomic Analysis Reveals Spatially Organized Macrophage–Fibroblast Crosstalk Driving Immune Exclusion in Urothelial Carcinoma	Tomohiro Iwasawa
PP-18	Lactic Acid Bacteria Enhance Antitumor Immunity in Bladder Cancer via Modulation of the Tumor Microenvironment	Hyun Jin Bang
